## Starting Quarter 2 Strong

We had wonderful Parent Teacher Conferences yesterday and today. My hope is that we built strong partnerships together, that your students have goals for quarter 2, and that you have a richer understanding of how we approach our work here at Roosevelt Prep. We try our best to serve the whole student, mind and soul, alongside you. Thank you! Let's start

out our Quarter 2 strong so that we can reap the benefits of past experience and hard work.

**Instructional Schedule Update:**

We are committed to academic rigor here at Roosevelt. More importantly, we are committed to providing academic student support equitably for all of our students. As a school with an A rating and with growth scores that met and exceeded our goals last year, we have learned much about what it takes for our students to be successful. This quarter, we are implementing an Instructional Intervention period in our schedule. The purposes of this time are to meet every single student's needs, providing targeted indirect and direct instruction to continue increasing their content mastery, and developing individual growth plans so they continue to excel. The focus for this upcoming quarter will be in mathematics. Our team of math teachers, alongside our National Academic and National Curriculum leadership, are working diligently to implement our system of support for all students. We look forward to seeing students become more aware of their own potential and exceed their own expectations for what they are capable of in mathematics!

**Anonymous Parent Survey (6<sup>th</sup> – 9<sup>th</sup> Grade):  
5 Minutes, 2 Questions**

We want to collect some quick and anonymous feedback from all of our 6<sup>th</sup> - 9<sup>th</sup> grade parents. This 2 question survey should take no more than 5 minutes to complete.

We want to use your input to both encourage our teaching faculty and school-wide staff and also to find where there are areas of improvement. We know and embrace the idea that we are not perfect. We are actively committed to a pursuit of excellence in everything that we do, which means that we find areas where we can get better and try our best to do so.

For those reasons, we invite you to share openly and kindly about what we are doing well and also ask that you share candidly and respectfully about where we can grow and improve. We cannot guarantee that we can change anything and everything that is shared but we can promise that wherever we can improve we will. We ask you that you take a few minutes to complete this as you leave conferences today.

Thank you!

We are so thankful for all our families that have given to Community Investment! If you have not yet set up your Community Investment, it's not too late! Set up your Community Investment below!
